NATIONAL UNIVERSITY OF PHARMACY
DEPARTMENT OF CLINICAL PHARMACOLOGY
AND CLINICAL PHARMACY
UKRAINE

REPORT
on the manufacturing practice
in Clinical Pharmacy

The student speciality “Pharmacy for foreign students”
(Language of Instructions – English) of the 5-th year of group _____ of the
National University of Pharmacy

(surname, name, patronymic)

Place of practice _____
(No of pharmacy, address, telephone)

Time of practice
from « » 20__ .
to « » 20__ .

The manager of the pharmacy institution

(surname, name, patronymic)

(signature)
Place for a stamp

Supervisor of the practice from the department

(surname, name, patronymic)

(signature)

General information about practical training place

1. Type of pharmacy (community pharmacy, private, hospital and others)

2. Timetable of pharmacy

3. Medical institutions located near the pharmacy (pharmacies, hospitals, ambulatories and others), their field of medical practice

4. Safety instructions:

(name and surname of the responsible person) (signature)

5. Organization of the work of the pharmacist at the drugstore:

- workplace equipment, pharmacist's responsibilities in the pharmacy organization

- the presence of the main existing orders and other regulatory documents governing the work of a pharmacist in the country where he has his practice, as well as information materials, reference books, etc.

6. Features of the organization of advisory and information work in this pharmacy:

- organization of work on the prevention of irrational use of drugs, prevention of undesirable side effects

- an example of an information sheet (informational message) about a new drug (or a drug that entered the pharmacy)

- The range of drugs in the pharmacy

7. Acquaintance with ethical and deontological aspects in the work of a pharmacist (the need and role of medical ethics and deontology in the process of communication between pharmacist and pharmacy visitor, pharmacist and doctor):

8. Psychological aspects of the relationships between pharmacist and patient (factors affecting the efficacy of therapy)

9. Give an example of pharmaceutical care conducting for pharmacy visitors, in which you have participated.

Day 1. ____/____/20____
(date)

No	Practical situation	Actions of the pharmacist	Situation analysis, your decision, recommendations
1.			

No	Practical situation	Actions of the pharmacist	Situation analysis, your decision, recommendations
2.			

No	Practical situation	Actions of the pharmacist	Situation analysis, your decision, recommendations

28.			

No	Practical situation	Actions of the pharmacist	Situation analysis, your decision, recommendations
29.			

No	Practical situation	Actions of the pharmacist	Situation analysis, your decision, recommendations
An example of pharmaceutical care of pharmacy visitors having a <u>prescription</u> for a drug			
30.			

13. Give an example of a drug prescribed by a doctor to treat a patient with hypertension and perform a pharmaceutical care according to the scheme (according to the protocols of the pharmacist (pharmacist) with prescription drugs for treating people with hypertension)

For this purpose, complete the table.

1) Patient No _____ Diagnosis: _____

Receipt	
Is the receipt correct?	
Compliance with the prescribed dose of the prescribed drug	
Information about the prescribed drug: - dosing regimen	
- conditions of drug administration	
- duration of treatment	
Features of the drug intake: - possibility of drug administration in pregnant and elderly people	
- possible side effects of prescribed drug	
the effect of nutrition and the simultaneous administration of other drugs General recommendations about the modification of lifestyle	
patient's actions in case of adverse reactions of the prescribed drug	

14. Make a list of trade names and indicate manufacturers of drugs:

No____, No____, No____, No____ (See in Appendix 1).

For this purpose, complete the table.

- Underline original drug from all analogs.
- Indicate OTC-drugs.
- Underline the drugs from the list of the drugs (active substance) in Appendix 2, which there are present in the pharmacy, where you conduct practice. Read the instructions (leaflet).

International name (active substance)	Trade names	Dosage forms	Company and country of manufacturing
No_____			
Information about the drug: - pharmaceutical effects			
- indications			
- dosing regimen			
- duration of treatment			
- conditions of administration			
-features of the drug administartion in different drug formulations			
- contraindications			
- possibility of drug administration in pregnant and elderly people			
- possible side effects of drug			
-patient's actions in case of adverse reactions of the prescribed drug			
-storage conditions

The list of abbreviation

Abbreviation	Latin	Meaning
a.c.	ante cibum	before meal
b.t.		bed time
BID	bis in die	twice daily
CAD		Coronary artery disease
Caps.		capsule
COPD		Chronic obstructive pulmonary disease
c.c.	cum cibo	with food (with meal)
CKD		Chronic kidney disease
D.S.	da signa	give or do
Dragee		Dragee (like tablet)
FC		Functional class
Gran.		granule
gtts	guttae	drops
HF		Heart failure
HF ₀		Heart failure absent
i.m.		intramuscular
i.v.		intravenous
IN		intranasal
inf.		infusion
inh.		inhalation
inj.		injection
IU		International Unit
mane	mane	in the morning
OD	omni die	every day, once daily
p.c.	post cibo	after meal
p.o.	per os	orally, take into mouth
PRN	pro re nata	as needed
Pulv.	pulvis	powder
q.a.m.	quaque die ante meridiem	every day before noon
q.p.m.	quaque die post meridiem	every day after noon or every evening
QAD	quaque alternis die	every other day
QID	quarter in die	four time a day
qqh	quater quaque hora	every four hours
QWK	quaque week	every week
RBC		Red blood cells
SL	sublingually	under the tongue
Sol.	solutio	solution
SubQ	subcutaneus	subcutaneously
Succi	succi	juice
Syr.	syrupus	syrup
Tab.	tabella	tablet
tbsp		tablespoon
TID	ter in die	three time a day
tsp		teaspoon
ung.	unguentum	ointment
